

IN THE SPECIFICATION

Please amend the specification as follows:

Replace the paragraph on page 2, between lines 24-25 of the specification with the following:

~~Due to the features as defined in claim 2~~ In one embodiment,  
the elastic support member may be substantially rectilinear and  
have an inclined position with respect to the plane of the disk so  
that the desired effect can be obtained by a simple, substantially  
rectilinear support member.

Delete the paragraph on page 2, between lines 26-27 of the specification.
